

# Saif Akram's Portfolio

eezyBot Arm MK 2: Designed by Carlo Francione

3D-printed Watch Tourbillion: Designed by Christoph Laimer

# Anet A8- 3D Printer Project

My first two projects through which I learnt and experienced the makings of a successful print.

Recreated using Creality Ender 3 and Anet A8, with an upgraded E3D Extruder (.25mm nozzle) to make smaller gears and hairspring

---

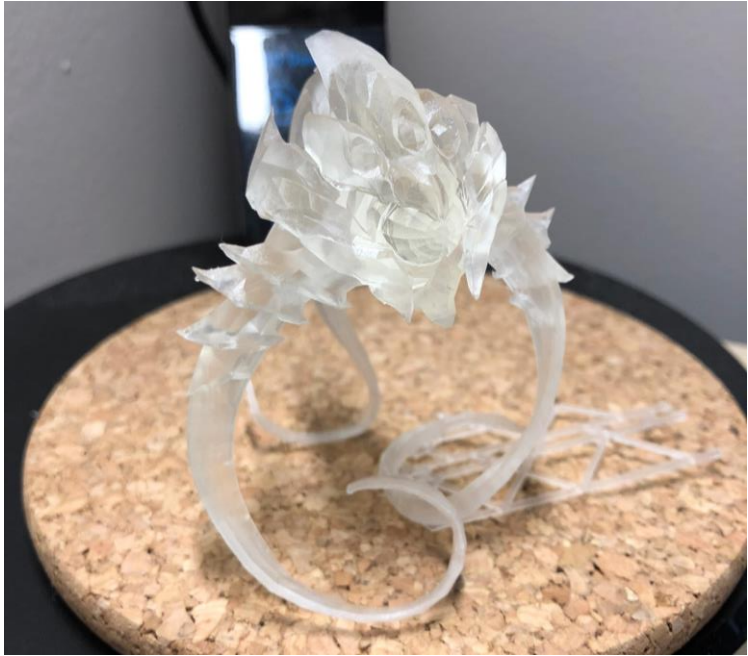

Hawkeye 3-Axis Tourbillon Designed by Adrien de Jauréguiberry

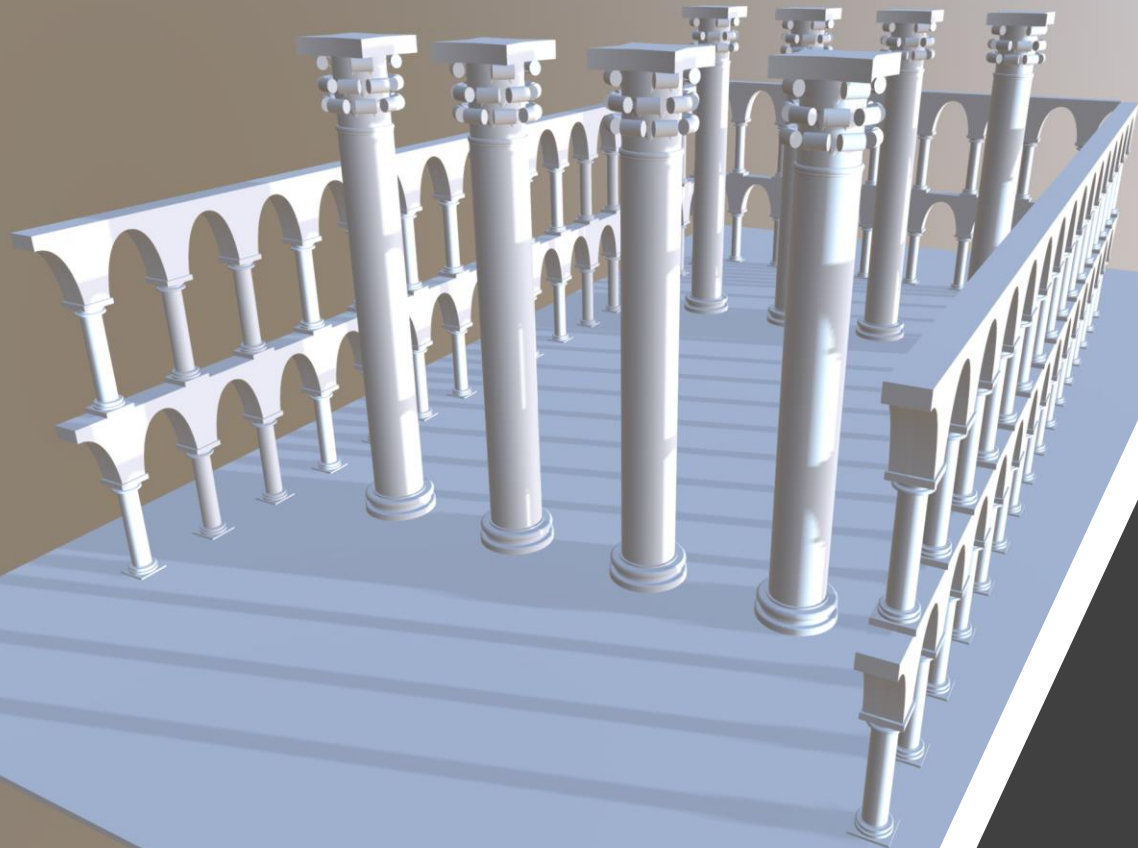

# Form 2 (SLA)

*Designers: Sotona u Krilo, William Mio, Ayden Dudding, MrGundam (Thingiverse)*

3D Models  
(Designed in Maya)
